## Experience

**Anesthesiology:** 19+ years of coding, billing and collection of complex anesthesia procedures.

**Pain Management:** 14+ years of coding, billing and collections of complex pain procedures

**Ambulatory Surgery Centers:** 10+ years of facility billing of all specialties

**Surgery:** 19+ years of coding, billing and collections of complex surgical procedures– all specialties

**General med, internal med, OB, chiropractic, physical therapy and massage therapy:** Billing and collections

**Workers' Comp:** 14+ years solid experience in Workers' Comp and PI liens, and Workers' Comp appeals board and court hearings

**With Automated Biller, you will receive money faster and easier. Insurance checks will be deposited electronically directly into your account. You will experience fewer declines and enjoy an increased reimbursement of at least 30%.**

## What are you waiting for?

Our system is available by purchase or lease. **If you lease, make one payment prior to 12/31 and you may be eligible to receive a full tax credit that will cover the entire cost of the software! Plus, by installing EMR software, you are eligible to receive Medicare/Medi-Cal/Medicaid incentives.** We have perfected our process, follow up and appeals to meet all of the demands of our clients. The result– our clients receive maximum reimbursement. Every day you wait is money wasted. Call us today to set up a FREE BILLING AUDIT, CONSULTATION AND DEMONSTRATION.

# Billing software that will increase your collections by 30% or more

AND

automatically send your insurance billing instantly– error free

Eliminates data entry, coding and dictation, and EMR is built into the system

Biller**  
Automated Medical  
Billing Systems

## Only a superior billing software program can promise AND deliver 30%+ increases and instant error-free billing\*

*That medical billing software company must:*

- Have engineered a state-of-the-art system that takes full advantage of the very latest information technology
- Have several years of medical billing experience and know all the ins and outs of billing
- Understand each of the complexities of billing correctly for your specialty
- Allow you to easily customize reports exactly the way you want them

*Only choose a medical billing software program that:*

- Has EMR built into the software
- Enables you to send your billing instantly
- Eliminates submission errors
- Can easily demonstrate to you how and why the software will maximize your reimbursement
- Does away with data entry
- Reduces your dictation time to near zero

**Automated Biller is the software package that meets each and every one of these standards**

\* 30% increase guarantee is based on whether your practice passes our assessment

## Automated Biller is completely automated, eliminates errors, is simple to use and sends electronic billing out instantly

*Our software system took eight years of painstaking hard work by medical billing experts and computer programmers to develop and perfect. Now it is here, works flawlessly and is ready for your practice!*

Automated Biller is so accurate and up-to-date our clients always receive the highest reimbursement possible for each service delivered. You will be thrilled when you see the size of your checks and how fast they arrive.

## Automated Biller is simple to learn and easy to use

**Your superbill:** We will create a custom superbill for you that includes everything... all of your procedures, time spent, diagnoses, material you use, etc. To do so, we'll thoroughly evaluate your operations and systems, and build all of the components you require into your customized software package.

Your superbill is designed in the background as coding. All you need to do is fill in the bubbles electronically via a tailor-made scanner we'll provide you, a touch screen on your computer or a digital note pad. In just a matter of seconds from the time you click "submit", the information is sent electronically directly to the insurance carriers. Claims for those insurances still requiring paper billing are a snap to prepare for mailing. Automated Biller also recognizes more than one system.

**Monitor your billing and reports any time, from anywhere:** You'll feel secure because you can always know exactly what is happening with your money. Day or night, you can go online and view up-to-the-minute status of your billing.

Reports are pre-customized to your liking. Automated Biller offers you each of the following reports:

- Daily Charge Report
- Weekly Practice Income Report
- Monthly AR Report
- Patient Count Report
- Yearly Financial Report
- Income by Referral Physician Report
- Patient Statement
- Practice Analysis Report
- Monthly Aging Report
- Quarterly Financial Report

**Eliminate time-consuming data entry and coding:** All you need to do is complete your customized superbill and Automated Biller will do the rest for you. No more data entry, no more coding. You will be able to assign staff to other tasks, thus allowing your practice to run more efficiently.

**Make your dictation fast and effortless:** Our system will automate your dictation, thus cutting the time you spend on dictation to near zero.

**Enjoy accurate claim submission and electronic remittance processing:** Automated Biller edits your submitted data before transmitting the information to the appropriate insurance carrier. The software simplifies and accelerates claims processing, eliminating much of the "human element."

**Patients hate filling out paperwork at your office when they're sick or in pain:** Why not make your patients' lives easier? Automated Biller enables patients to fill out their insurance information online from the comfort of their homes. Patients' completed forms immediately travel electronically into your system.
